

Faculty Positions at the Faculty of Engineering and Natural Sciences (FENS) at IstinYE University

The FENS at IstinYE University is seeking multiple full-time faculty members and instructors. The Faculty includes 11 departments (7 engineering and 4 natural sciences). The Faculty is immediately seeking multiple full-time faculty members and instructors. The faculty members are expected to perform research and development work, and teach undergraduate and graduate courses, write grant proposals, and collaborate with the researchers and faculty in the existing schools and departments. The instructors are also sought for teaching fundamental engineering courses as well as courses such as physics and mathematics. The Faculty's research and educational agenda includes algorithms and theory, programming languages and platforms, operating systems, computer architecture, embedded systems, applied cryptography, cyber-physical systems and security, machine learning, human-computer interaction, computational biology, circuits and systems, applied control systems, robotics, bioinspired and neuromorphic computing, sensors, signal and image acquisition and processing, wearable computing, and aspects of electronics and computing in medicine. Candidates with a PhD in their respective fields and proficiency in English and/or Turkish are asked to apply by emailing a single PDF that contains: cover letter, curriculum vitae, teaching statement, research statement, and the names and email addresses of 3 references. The CV should also include the URL of the candidate's Google Scholar page. Applications will be accepted until the positions are filled; however, applicants are encouraged to apply as soon as possible. All applications will be kept confidential and should be sent to Hatice Gülen, Dean of the FENS, at hatice.gulen@istinye.edu.tr
